Dear Sir,

In hastening to express my sincere thanks for your kind and prompt compliance with my request for an inspection of the land near Yeswantpur Railway Station, I am writing now to request you to be so good as to move the Government to - accord their early sanction to the grant of lands required by me, and which you were good enough to inspect on the morning of the 1st instant, for the construction of the quarters for the staff and the workmen of the Parachute Silk Factory to be located near our Mahalakshmi Mills, as also for the construction of s suitable building for the hospital to serve the medical needs of the people of this area which at present is without any such amenity. This building for the hospital which is - expected to cost me not less than Rs.30,000/- (the plan and design thereof has been approved by the Senior Surgeon to the Government) is intended by me to perpetuate the name of my mother and the memory of my late revered father. As these lands are understood to form part of the Government Kaval Lands, I request that they may be kindly granted to me for a nominal

price.

As regards the lands required for the approach road to the Mahalakshmi Mills and the proposed Parachute Silk - Factory, which were shown to you at the time of inspection, I further request that these lands which are understood to be in private holding may kindly be caused to be acquired by the Government and handed over to me for the formation of a pucca motorable road which is very badly needed in this area which has already become the hub of Industrial Activity and whose importance as an Industrial Centre is bound to increase as the years go by.

Further more, I wish to bring to your kind notice, that I have allowed the free use of a portion of my private land near the Mahalakshmi Mills by the Water Supply Department for taking their duplicate main pipe line. I trust that, in consideration thereof, I may not be deemed to be making an extravagant request if I asked for the pipe connection being given to my Mills, the staff, the two factories and the Yeswantpur Colony, as people in this locality are suffering badly for want of good drinking water.

Details about the Survey Numbers, extent etc., will be - furnished in due course along with the sketch of the lands required.

Yours faithfully,

V. V. [illegible]
